

**HERINGTON
HOSPITAL**
A Community of Care.

Employee of the Month

July 2022

William Glenski

Quote from a fellow staff member:

“Billy is an invaluable resource for knowledge, while also being a great team player, an empathetic and compassionate member of the care team, and an inspiration to his peers!”

Billy is a 4th generation pharmacist in his family dating back to his great Aunt Helen who was one of the first women to graduate pharmacy school in a profession of predominately men at the time. You could say the passion and dedication to others through medicinal knowledge runs in his blood. This past fall William and his wife welcomed their son Emerson into the world and have been trying to catch up on sleep ever since. He enjoys time spent with his family, outdoors, and running with his chocolate lab Olive.

Billy says, “What I like most about working at Herington Hospital are the people. Both the employees and patients make me feel welcome and valued in my everyday work. On a daily basis I am able to flex my clinical muscles and interact with patients hands on. Moving here from the city was daunting at first, but well worth it in the end. I wouldn’t have it any other way. A wise man once said, “If you enjoy what you do, you won’t work a day in your life”. I am blessed to find meaning in those words right here in Herington!”

Congratulations Billy and thank you for the great care that you provide to our patients and the community!!
